

Student Information – Skills4trade – Land Works - Orange

This program will provide an introduction to working in the land care industry (nationally recognised training) for participants who are 15-40 years and have left school. Participants will develop their language, literacy and numeracy skills and gain work experience with a pathway and training credit towards a land works, horticulture or agriculture traineeship or apprenticeship.

In a partnership with Skillset, TAFE Western will conduct the training and assessment for the Skills4Trade program and will issue a statement of attainment for units of competency successfully completed.

Work Preparation and Work placement:

Participants will be provided work preparation training and up to five days negotiated work placement. This work experience will be offered to students who successfully complete training and demonstrate commitment through a strong attendance.

This course runs 2 – 5 days per week. Delivery starts with Induction on Wednesday 27 March (10 am – 3 pm)

The final timetable, including Graduation date will be provided at Induction.

Unit of Competency	Horticulture
AHCCHM201	
Apply chemicals under supervision	This unit of competency describes the skills and knowledge required to handle, transport, and apply chemicals under supervision using workplace specified chemicals and application equipment. The unit applies to individuals working in a broad range of job contexts who undertake defined routine activities under supervision. They exercise limited autonomy within established and well-known parameters, providing solutions to a limited range of predictable problems. State or territory licensing, legislative or certification requirements apply in some jurisdictions.
AHCPMG201	
Treat weeds	This unit of competency describes the skills and knowledge required to recognise significant weed species and apply a range of weed treatment control options. This unit applies to supervised workers treating weeds in commercial crops, nurseries, parks and gardens, turf, and natural areas and is carried out following strict work instructions and under supervision.
AHCPGD201	
Plant trees and shrubs	This unit of competency describes the skills and knowledge required to manually plant trees and shrubs and other containerised and bare-rooted plants. It applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They undertake defined activities and work in a structured context.

AHCWHS201	
Participate in work health and safety processes	<p>This unit of competency describes the skills and knowledge required to recognise and report hazards in the workplace. It also describes the skills and knowledge required to follow workplace safety procedures and directions. This unit is applicable to supervised workers who are required to follow work health and safety policies and procedures. All work must be carried out in accordance with enterprise procedures, recommended safe practices and the relevant legislation.</p> <p>This unit applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They identify and provide solutions to a limited range of predictable problems.</p> <p>No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.</p>

Unit of Competency	Work Preparation
FSKOCM03	
Participate in simple spoken interactions at work	This unit describes the skills and knowledge required to participate in a limited range of simple spoken interactions in the workplace, such as talking with co-workers, participating in workplace meetings, giving and responding to simple instructions, receiving and passing on simple messages, or talking with clients
FSKLRG06	
Participate in work placement	This unit describes the skills and knowledge required to plan and participate in work experience.

A detailed timetable will be provided on the first day of class.
